

MOVING THE WORLD

SINCE 1968

YOUR PREFERRED
SOLUTION PROVIDER
FOR **INDUSTRIAL** AND
AUTOMOTIVE EXCELLENCE

OUR MISSION AND VALUES

OUR MISSION

To push the boundary of how we deliver value to end customers and channel partners by providing quality products and a solution-driven approach.

OUR VISION

Preferred industry partner driving sustainable value through innovative solutions and services across the value chain.

OUR VALUES

Ethics Above All

- Integrity
- Excellence
- Faith & Trust

Customer Focus and Ownership

- Customer centric
- Understanding pain points
- Taking full ownership

Global Strength, Local Presence

- International network
- Dedicated regional teams
- Stock points

Agility and Flexibility

- Opportunity for growth
- Learning at all levels

Sustainable Growth

- Strategic acquisitions
- Partnerships

OUR COMMITMENT

At KG, customer centricity is at the core of everything we do. We understand the critical importance of keeping your machinery running without interruption — because downtime costs more than just time. That's why we engineer our products and services with purpose, precision and performance in mind.

From lowering your total cost of ownership to enhancing equipment reliability, every offering is designed to deliver long-term value. Our commitment is simple: to improve cost efficiency, extend bearing life and reduce downtime with every solution we deliver.

BUSINESS FOOTPRINT

60+ countries being catered to by our global presence and distribution hub in Dubai

100+ team members managing our global distribution network

Stock of 24M+ items to meet global expectations across industrial & automotive segments

250,000 sqft. distribution hub in Dubai to manage our global operations

Leading QC infrastructure through labs and teams in China, India & Dubai.

Operating on leading tech stack (SAP, Salesforce)

ENGINEERED TO THE FINEST

TECHNICAL SUPERIORITY

- Made with high-quality GCr15 and GCr15SiMn Steel
- Hardness of 58 – 64 HRC, matching OEM requirements
- All parts and components manufactured under a single roof for total control
- P6 Tolerance or higher
- Internal geometry matching leading European standards

UNPARALLELED TECHNICAL AND AFTER SALES SUPPORT

- On-ground application engineering support
- Trainings on correct bearings installation and handling
- Remote failure analysis
- Automated lubrication installation
- Process re-engineering / bearing re-designing
- Condition monitoring

BENEFICIAL COMMERCIAL TERMS

- Prices focused on driving meaningful ROI improvements along with local stock with easy access

EVER-EXPANDING PRODUCT AND SERVICE CAPABILITIES

*SOLUTIONS TO HELP TRUCK AND FLEET OWNERS BECOME
MORE COMPETITIVE, PRODUCTIVE, AND PROFITABLE.*

- Built to high precision (P6) to improve longevity and durability
- Premium quality materials that adhere to OEM specifications
- Maximum reliability through 100% quality checks
- High-quality grease that effectively reduces service intervals
- Test certificate included to ensure strong dependability
- Competitive pricing and strong stock in Dubai

RANGE BUILT TO DELIVER MINIMUM 150,000–200,000 km OF LIFE.

WHEEL HUB

REPAIR INSERT UNIT

CRAFTED FOR CONVENIENCE

KG FILTERS AIM TO EFFECTIVELY CATER TO AFTERMARKET NEEDS THROUGH:

- High-quality parts and premium filter media sourced from industry leading suppliers in Austria and Korea
- Pricing that will help drive margin to make customers more competitive, productive, and profitable
- Strong design and packaging to drive scalability
- Ability to quickly develop range based on customer requirements
- Strong stock in Dubai for more manageable delivery times

RANGE COVERING MOST POPULAR EUROPEAN & ASIAN TRUCKS
AND HEAVY EQUIPMENT.

ADVANTAGES OF HIFI-KG BULK FILTERS

HIFI-KG bulk filters offer several advantages, including:

Fiber glass media that maintains a **consistent efficiency**

β2,000 – β10,000 vs. industry standards of β200 to β1000 only

Single pass filtration that can remove all types of contaminants **in one go**

Versatility to cater to all use cases

HIGHEST BETA RATIO IN THE WORLD

Main data				Filter media		Applications
Product number	Direction of flow	Max working pressure	Temperature range	Media type	Micron rating / beta ratio	
PE SNR 537V07 V	Out/In	24 bar	-25°C to +120°C	Fiberglass	$\beta(7\mu) \geq 2\,000$	Hydraulic oil
PE SNR 537V25 V	Out/In	24 bar	-25°C to +120°C	Fiberglass	$\beta(25\mu) \geq 2\,000$	Gear oil (high viscous fluids)
PE SNR 537V04 V	Out/In	24 bar	-25°C to +120°C	Fiberglass	$\beta(4\mu) \geq 10,000$	Diesel/ transformer oil (Low viscous fluid)

ONE STOP FILTER SHOP

With a single point of contact for your filtration, take advantage of numerous benefits and profit from a trusted ally for the maintenance management of your vehicles, machinery and equipment.

QUALITY & WARRANTY

In filtration, "quality" and "performance" are essential to protect people, equipment and environments. These concerns are at the heart of our business and our approach.

STOCK & AVAILABILITY

Recognising the impact that downtime can have on a business, we ensure maximum availability with 30,000 items available from stock and fast delivery worldwide.

SUPPORT & ADVICE

Teams and digital tools to support all your service needs and help you better manage your fleets and operations

APPLICATION WARRANTY

HIFI FILTER® filters are covered by an international insurance group. In the event of engine or material damage caused by the failure of our filters, they assume responsibility for them, provided that filters are installed and used correctly.

CONVEYOR BELTS RANGE

Width	Upto 2500 mm
Length	Upto 600 Mtrs. (Single Roll)
Ends	Open or Endless
Edges	Cut or Moulded / Locked
Fabric Reinforcement	2 to 10 PLY in Polyester /Nylon(EP), Nylon/Nylon(NN), Cotton Nylon, Steel Breaker on Top
Carcass Construction	Straight Ply/Stepped Ply/Reverse Stepped Ply
Cover Thickness	As per Customer Specification
Cover Grades	M-24, N-17, HRT-1, HRT-2, HRT-3, UHR, SAR,OR, FR, MSHA-14 and Blend Grades
Rough Top Profile/Chevron	Rough Top, V Cleat, U Cleats, Y Cleat, H-75 Cleat, Multi V, Pulley Lagging
Cover Grade	AS PER: IS 1891 (P) I-V, DIN 22102: 1991, ISO 340, CANADIAN STANDARD CAN/CSA/M-422/M87, AUSTRALIAN STANDARD AS1332-2000, MSHA -14

EXTENDING YOUR BEARING LIFE WITH AUTOMATED LUBRICATION

AUTOMATED LUBRICATION SYSTEMS TO DRIVE OPERATIONAL EFFICIENCY

Automated lubrication systems deliver exact lubricant quantities to prevent over or under-lubrication. This continuous, automated approach minimizes manual interventions and human errors, significantly reducing repair, failure, and labor costs.

LUBRICATION SOLUTIONS

DropsA automatic lubrication systems enhance steel making operations by delivering precise lubricant replenishment across all critical points. They offer various lubrication solutions, including grease, oil, air/oil, and circulating oil systems.

QUALITY ASSURANCE

Every component is meticulously engineered to meet the highest standards, guaranteeing both reliability and efficiency for lubrication processes in heavy machinery and industrial automation systems.

COMPONENT CATALOGUE

Component catalogue by DropsA features a wide array of high-quality lubrication system components, from fittings and valves to controllers, providing tailored solutions to diverse lubrication requirements through innovation and expertise.

SERVICES AND SUPPORT

With a team of seasoned professionals, DropsA and KG provides comprehensive assistance throughout the lifecycle of lubrication systems, offering tailored solutions to meet individual client needs.

COST EFFECTIVE SOLUTION

This centralized automatic lubrication system boosts machinery and bearing longevity by administering the precise amount of lubricant at the right intervals, effectively minimizing wear and reducing associated costs for improved operational excellence.

RANGE OF LUBRICATION SOLUTIONS

For steel industry applications

- Mining
- Rolling mill air/oil lubrication system
- Continuous Casting with Dual Line Greasing System
- Coiler spray
- Straighteners
- Cages, looper and shears
- Working rolls
- Intermediate rolls and back-up rolls

For product lines and spares

- Single/Dual line lubrication system
- Dual line lubrication system
- Total loss lube systems
- Air/oil lubrication systems
- Near dry machining MQL
- Pumps
- Sensors and monitoring devices
- Valves and dividers

BENEFITS OF AUTOMATED LUBRICATION SYSTEMS

Considerable savings on spare and repair costs

Enhanced dependability of the machine

Reduced losses in production and shutdowns

Decreased effect on the environment

SERVICES TO EVOLVE YOUR OPERATION

Our global team of engineers are trained to support our customers in diagnosing issues in their current operation, advising clients on improvement opportunities and elevating maintenance practices to drive uptime and efficiency. This level of service is what distinguishes KG from other providers and ensures we deliver value beyond price.

VALUE DELIVERED TO YOU

Reduced capex by protecting your valuable assets

Reduced downtime & increased production time

Reduced maintenance costs & improved uptime

Improved team efficiency & effectiveness

CONDITION MONITORING SERVICES

KG Ultra Condition Monitoring Services gives you a smarter edge with real-time machine health tracking. Through its **portable** and **online** solutions, it delivers early fault detection and predictive insights—helping you prevent unexpected breakdowns, reduce maintenance costs, extend equipment life and maintain peak productivity.

MAINTENANCE ASSESSMENT TO LEVEL UP YOUR MAINTENANCE OPERATION

Maintenance operations are vastly complex and in our 58 years of experience, we have rarely seen best practices being consistently followed. The **KG Maintenance Assessment** offers a comprehensive evaluation of your maintenance processes, methods, tools and practices identifying opportunities for optimization and a world of improved uptime and reduced costs.

THE PILLARS OF KG MAINTENANCE ASSESSMENT

This comprehensive assessment centers around following critical elements that form the foundation of effective maintenance practices:

Bearing Mounting &
Dismounting

Lubrication
Management

Shaft & Belt/Chain
Alignment

Condition
Monitoring

Bulk Filtration

Gearbox

Store Audit

KEY OUTCOMES OF THE KG MAINTENANCE ASSESSMENT

THE KG ULTRA APP - YOUR COMPANION FOR IMPROVED SERVICE, EFFICIENCY AND EFFECTIVENESS

In today's competitive landscape, cost effectiveness and uptime are critical. Unplanned downtime disrupts workflows and leads to substantial financial losses, impacting your bottom line. The **KG Ultra App** offers a unique solution designed to help maintenance teams get an unparalleled level of knowledge, training and service right at their fingertips.

KG SMART SUPPORT - ADVANCED SERVICE AT YOUR FINGERTIPS

KG Smart Support is a suite of digital solutions designed to support your maintenance team. No longer will your team have to deal with dated products and delayed services, allowing you to confidently ensure that your maintenance operations follow best practices with total convenience.

REMOTE FAILURE ANALYSIS

To identify the root cause of equipment failure and prevent recurrence with corrective actions

CONDITION MONITORING

Predict and prevent breakdowns by connecting sensors for real-time monitoring of your equipment's health

MAINTENANCE ASSESSMENTS

Receive comprehensive evaluations of your maintenance processes to improve efficiency

ENGINEERING CONSULTATION

Connect with our experts anytime, anywhere and receive immediate solutions to technical problems
